DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The instantly claimed process for producing a 4- aralkyloxybenzoic acid of formula (3) is neither disclosed nor fairly suggested by the closest art of record: Johnson et al (US 5,587,483). Johnson does not recognize the presence of the trace impurity removed by the instantly claimed process and thus cannot be seen to suggest the instant pH adjustment in order to remove it. The instantly claimed process is therefore patentable over Johnson, the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
